

Date:

Wednesday Challenge Form

Group Members: Paul Baca, Raul's team

Problem Statement: We have to move a marble
Across a medium-long distance into a bucket
As a team.

Approach: We tried moving the marble fast at
And that didn't work so we moved it a little
Slower which then made it work.

Solution: Moving the ball slowly and not yelling
At your team mates, Jayden's team won.

Lessons Learned: Teamwork is important and
Moving the ball slowly is also important.
